

ENGAGE

Minnesota Renewable Energy Society's annual Solar Tour, held in October, in conjunction with the National Solar Tour, has inspired building owners to adopt the renewable-energy habit. Come to the next MN Solar Tour and see what you can do. Learn about utilizing renewable energy technology and talk to building owners with solar energy experience.

Learn more about renewable energy technologies via attendance at MRES guest speaker lectures, tours, training, and renewable energy courses.

Student-teacher teams are invited to experience the thrill of competition and the pride that comes from inventing something useful, innovative, and solar-powered by participating in the annual Solar Boat Regatta!

EXPLORE

The Minnesota Renewable Energy Society (MRES) is a member-run, 501(c)(3) non-profit organization founded in Minneapolis in 1978 to promote the use of, and to engage in advocacy for, renewable energies in Minnesota through education and the demonstration of practical applications.

Our Mission

To advance a sustainable society and a renewable energy economy through education, leadership, and example.

Our Vision

To be a key catalyst in advancing solar energy and in transforming Minnesota's energy landscape to embrace efficiency and sustainability.

Our Values

Above all else, we believe in:

- Planning for the long term in order to preserve the commons for future generations;
- Equitable access to renewable energy for all;
- Effecting change through education and example;
- Embodying excellence and positivity;
- Honesty, science, and truth;
- And...perseverance.

Member Benefits

- Access to knowledgeable renewable energy activists and experts
- 10% discount on rental of the Solar Power Trailer or Solar Cart for outdoor events
- Special discounts on many courses, workshops, and tours
- Member voting privileges
- Affordable rental rates for site assessment equipment
- *Solar Flare* e-newsletter full of renewable energy information and news
- Monthly informative speakers / networking opportunity
- Priority placement in courses and tours
- *Additional benefits according to level*

Active participation in the development of a renewable energy economy!
